

Bringing Piston Owners The Same Peace Of Mind Jet Owners Enjoy

Jet Owners Won't Fly Without It – Now Piston Owners Can Have It Too

In the corporate jet aircraft world, maintenance programs are the norm, with good reason. Engine issues are often unpredictable, and savvy owners want to be protected from high, unexpected maintenance costs.

PistonPower™ is general aviation's first and only comprehensive protection program for piston aircraft. PistonPower™ brings stability to your maintenance budget and peace of mind to your business and personal flying by minimizing the risk of costly unplanned repairs and protect you from catastrophic downtime.

Decades of Experience

We know this well, because PistonPower™ founder Ron Zilberbrand previously launched the company that

became the premier independent provider of jet engine maintenance programs, JSSI. He also designed Falcon Care, Gulfstream Corporate Care programs, and more.

PistonPower™ Provides

- Protection from unforeseen and often costly maintenance expenses
- Predictability of having a fixed budget for annual maintenance
- Reassurance of having technical aviation specialists available days and evenings to troubleshoot problems
- Peace of mind with available reimbursement for loss of use and trip interruption
- Confidence that PistonPower™ coverage increases your aircraft residual value — and is fully transferable if you sell your plane

Pick and Choose the Program to Match How You Fly

With four program levels — you can easily protect your piston engine aircraft for your individual needs.

LEVEL 1 UNSCHEDULED

100% parts and labor for unscheduled component maintenance.

LEVEL 2 UNSCHEDULED PLUS

Includes **Unscheduled** program with the addition of covered accessories (alternators, fuel pump, magnetos, starter, turbo, etc.).

LEVEL 3 SCHEDULED

Includes **Unscheduled Plus** program with the addition of 100% parts and labor for scheduled engine maintenance, annual engine inspections, magneto swap and engine overhauls.

LEVEL 4 AIRFRAME

Includes **Scheduled** engine program with the addition of 100% parts and labor for unscheduled and scheduled airframe maintenance, annual inspections, oil changes and all overhauls.

We cover all piston aircraft makes, models and engines!
